PROFESSIONAL AFFILIATIONS:

Institute of Transportation Engineers
American Planning Association
American Institute of Certified Planners

CONTINUING EDUCATION:

FAU Center for Urban and Environmental Solutions; The Transportation Exchange; Transportation Today; Northwestern Traffic Institute, Highway Capacity Workshop; The Urban Land Institute, Southwest Florida

EXPERIENCE:

As General Manager of David Plummer & Associates Southwest Florida Regional Office, Mr. Gillis oversees staff, production, quality control, and client relations. He also supervises the preparation of all of the Southwest Florida Regional Office's transportation projects.

Mr. Gillis has extensive experience in the preparation of long range transportation plans, transportation corridor studies, and the analysis of traffic impacts of developments throughout South Florida. He has been responsible for the preparation of the traffic studies and traffic mitigation programs for many of the largest Developments of Regional Impact in South Florida. He was the principal author of Lee County's district approach to concurrency, the Lee County Road Impact Fee Ordinance, the Collier County 2020 Financially Feasible Plan, and the Lee Plan - Traffic Circulation Element. He has also been responsible for the preparation of several roadway corridor and alignment studies in Southwest Florida including the US 17 Bypass Study in Charlotte County, the Fowler-Summerlin Connector Study in Lee County, and the Hanson Street Extension in the City of Fort Myers.

Prior to joining DPA, Mr. Gillis was involved in transportation and land use planning with The Kaiser Transit Group and Louisville and Jefferson County Planning Commission. As Senior Planner with The Kaiser Transit Group, Mr. Gillis managed the Station Area Design and Development Program which was responsible for preparing land use and transportation circulation plans for the areas surrounding the MetroRail Stations.
